Toward a White Paper:

Examining Together a First Series of National Measures to Raise the Bar on Quality

Since 2022, each of the 14 interdisciplinary and intersectoral research teams across Canada has conducted activities aimed at better understanding the reasons for and impacts of barriers to quality that are often neglected or poorly integrated into the processes of programming, design and production of the built environment. We have adopted a bottom-up process, calling on the thoughts and experiences of representatives of users and citizens, representatives of public and municipal commissions, and representatives of the professional community, all coordinated by teams of academics and students. These "14 partnership tables" committed themselves to formulating strategies for effective concerted change. These strategies gradually took the form of "14 roadmaps to quality"

We must stress the bottom-up dimension of our partnership approach, which differs from most of the approaches adopted by the national quality policies being developed in several countries, which often take a top-down, global approach

Let us summarize the major milestones of our work, supported by the Social Sciences and Humanities Research Council of Canada since the summer of 2022:

In August 2022, the Montreal convention was inaugural in that it laid the foundations for our work schedule and confirmed the principle of partnership tables. This first face-to-face meeting followed long years marked by the preparation of our research project, but also by the constraints of COVID. The Montreal convention enabled many partners to finally meet, and allowed the 14 research sites to collectively carry out an initial inventory of barriers: in other words, all those obstacles to quality that make our built environments less equitable, less inclusive, less socially relevant and not sufficiently sustainable, or even resilient.

In 2023, the annual convention in Calgary was an opportunity to report not on barriers and blockages, but on an initial set of positive experiences in Canada's built environment. This time, it was a question of thinking quality through experience, rather than conceptually, or in disciplinary, managerial or even expert terms. As a result, the search for the best methods of collecting lived experiences of quality has become a major feature of the 14 projects across Canada. This practice is intended to underpin our understanding of what quality really means in the daily lives of everyone, not just experts. It has to be said, however, that listening to and taking account of lived experience is still far from common practice in the commissioning, design and production of built environments. The same applies to research and training in all disciplines. Where are the users, where are the citizens in our definitions of quality?

In 2024, at the Halifax Convention, partners and participants were invited to report on a positive outcome based on their own experience of the project. After two years of meetings and analysis at local and national levels, it was important to understand how the process had contributed to changing our understanding and definitions of quality. As the built environment is a collective project, and while recognizing that professionals play a decisive role, it was important to open up the black box of processes by reminding designers that they cannot see themselves as the sole points of reference on a roadmap to quality. Between the extremes - of a vague consultation or a process that would be entirely controlled by citizens - we placed the partnership approach in a median space: that of the co-construction of expectations and assessment criteria. Our bottom-up approach, based on interdisciplinary and intersectoral research methods, did not require to confuse partnership for quality with that of co-design. For Halifax 2024, the 14 partner teams were in fact invited to set out their roadmaps in a median space between action and knowledge.

A few months later, at the online convention in November 2024, the teams presented an initial list of actions designed to achieve specific objectives for raising the bar of quality. While some of these actions had already been tested locally, whether at the pedagogical, professional or public commissioning level, at this stage they were all still very much glued to research projects and their inclusion in specific contexts.

For the Toronto 2025 National Quality Convention, as we now move towards the conclusion of the Quality Partnership, two sets of requirements have been considered by all teams in recent months:

1. How do the updated roadmaps already offer strategies for intervention and quality improvement at local level?

2. What aspects of the roadmaps could form part of a national quality strategy?

At the University of Toronto, there will be three levels of exposure:

1. We've commissioned students in each team to produce short videos outlining the barriers, approaches and specific proposals in the most open way possible, in order to reach the widest possible audience. At the luncheon on May 2, the jury will present the results of the "video competition" we have proposed to stimulate creativity and engagement. All videos will be accessible via our forum: LivingAtlasofQuality.ca.

2. We have asked all teams to summarize the most up-to-date status of their roadmaps in 3 panels, which will be exhibited at the convention in May, and then at the annual meeting of the Royal Architectural Institute of Canada in June in Montreal. With these new roadmaps, we want to reach out to professional groups - but also to new citizen and community groups - to invite them to contribute to mapping the lived experience of quality in Canada. This is a long-term ambition, which may well extend beyond the scope of our SSHRC project.

3. Finally, and perhaps most importantly at this stage, we will venture to assess a first state of what could become a "white paper on quality" in the form of 48 national actions. During two series of round tables (May 1 and May 2), all the partners and students present will be divided into 8 heterogeneous groups (see breakdown at the end of this program). Each group will review 6 actions per meeting, ideally 12 actions over the two days of the convention. By the end of this process, all the proposed actions should have been read, understood and commented on by at least two groups of around twenty people. That is what we call: **Examining a first series of quality measures together.**

Note that these 48 actions were formulated by not just 14, but 16 groups. The national partners (RHF, RAIC, PSPC, etc.) are now considered the 15th team, while under the impetus of Athabasca University student Trishtina Godoy-Contois, a member of the Métis Nation of Alberta (Red River Métis), a new group of indigenous expertise is emerging at the heart of our shared adventure. It goes by the acronym EIL for Emerging Indigeneous Leaders, and we welcome this initiative with great hope and attention. Following the convention, and taking into account the feedback received from participants, if each of the 16 teams manages to propose the implementation of at least 3 concrete, well-thought-out actions, the resulting white paper will bring together at least **48 ways to change the current situation of the built environment in Canada.**

The aim of this White Paper on quality is therefore to provide a detailed list of short-, medium- and long-term recommendations for national action to be taken, at educational, professional or public procurement level, with a view to a national strategy for improving quality in the built environment in Canada.

What is an action toward quality?

In the context of a preliminary definition of a white paper for the Toronto convention, an action refers to a concrete, strategic initiative aimed at improving quality and challenging the status quo. While the content and structure of such a white paper will be discussed at the convention (e.g., a white paper on education, a white paper on practice, etc.), it is important to emphasize here that, unlike guidelines that provide general recommendations, an action is a deliberate, transformative process designed to create tangible change.

Actions must be measurable and adaptable to different contexts in order to make significant progress toward improving quality in Canada's built environment. These actions can be developed for educational, professional or governmental situations and processes. As our partnership brings together **four types of actor**, some of the proposed actions may be approached or implemented by at least one of these types of actor: citizen groups, professionals (as well as professional organizations and/or industries), public procurement representatives and academics (including students).

The actions we will be examining have been structured as follows:

1. What is the specific problem or obstacle to quality that your research team has been working on since the beginning of the SSHRC quality partnership?

2. What needs to be done to remove this type of obstacle to quality in the built environment?

3. Who should implement this action and how can they do it?

The program for this important convention includes debates, meetings and visits, as well as conferences and networking opportunities. We'll be delighted to welcome Canadian and international speakers, who will be commenting - and even giving critical feedback - on their own approaches to quality improvement policies and strategies, whether successful or unsuccessful, or ongoing, like ours. Thanks to the generosity of our partners at Toronto Metropolitan University, Professors **Lisa Landrum** and **Marco L. Polo**, we will discover student work and research on the Waterfront over a friendly cocktail.

On behalf of the Governance Board and the Steering Committee, Dimitri joins me in warmly thanking Professors **Rob Wright** and **Fadi Masoud**, and of course the students and administrators of the University of Toronto for graciously welcoming us into an environment, theirs, that is a fine example of excellence in architectural quality.

On behalf of the members of the steering committee,
Jean-Pierre Chupin, Ph.D., Professor, FRSC, FRAIC
Canada Research Chair in Architecture
Université de Montréal
Director, SSHRC Research Partnership on Quality

Dimitri Weibel, MSc, Political Science
Administrative Coordinator, SSHRC Research Partnership on Quality

Day 1 | Wednesday April 30, 2025

8:30 - 9:00 am

Indigenous Welcome Ceremony (outdoor, see plan p.29)

Paul Oberman Belvedere - South Patio

9:00 - 9:45 am
PLENARY

Official University of Toronto introductory remarks by acting dean Robert Levit, Fadi Masoud and Robert Wright
+
Objectives and special events for the Toronto convention by Jean-Pierre Chupin

DA170 - Main Hall AB

9:45 - 10:15 am

Coffee Break | Tags and information

DA170K - Daniels Commons

10:15 - 11:45 am
PLENARY

Guest Introduction by Fadi Masoud
Introductory Keynote by Christopher Glaisek
Chief Planning and Design Officer at *WATERFRONT Toronto*
"Design Excellence and the Toronto Waterfront"

DA170 - Main Hall AB

11:45 am - 1:00 pm

Lunch

DA170K Daniels Commons

14 videos + exhibition of updated roadmaps

First Floor + Second Floor Hallway Pinups

1:00 - 1:30 pm
PLENARY

Expectations and instructions for first roundtable
by Jean-Pierre Chupin, Miriam MacNeil, Samantha Biglieri and Trishtina Godoy-Contois (Members of the Steering Committee)

1:30 - 3:30 pm
ROUNDTABLE 1

8 rooms (see Room Distribution p.20)
Each group evaluates 6 of the 48 proposed actions for a national strategy for quality

DA170AB // DA170C// 209 // 215 // 240 // 300 // 315 // 340

3:30 - 4:00 pm

Coffee Break

DA170K - Daniels Commons

4:00 - 5:30 pm
PLENARY

Guest Introduction by Terrance Galvin (Member of the Steering Committee)
Darryl Condon + Lisa Landrum
"Retrospect on the Rise for Architecture project + CAFÉ experience"
+
Students' Take from the 8 Rooms of the First Roundtable on National Actions

DA170 - Main Hall AB

5:30 - 6:15 pm

Walk (or TRAM 506) to Toronto Metropolitan University (see Map p.33)

TMU Architecture Building, 325 Church Street, Toronto ON

6:15 - 8:00 pm

Reception at Toronto Metropolitan University
Opening Words by associate dean Stephen Waldman, Lisa Landrum and Marco L. Polo
+
Presentation and student exhibition on the « Waterfront Stories »

Day 2 | Thursday May 1, 2025

8:30 - 9:00 am	Welcoming participants + Coffee
9:00 - 10:00 am **PLENARY**	Guest Introduction by Jean-Pierre Chupin **Presentation by Oliver Martin** **Chair of Davos Baukultur Alliance, Switzerland** ***"Implementing a Strategy for Quality in Europe"*** DA170 - Main Hall AB
10:00 - 10:15 am	Coffee Break DA170K - Daniels Commons
10:15 - 10:30 am **PLENARY**	**Objectives of the second roundtable** by Doramy Ehling, Susan Speigel and Terrance Galvin (Members of the Steering Committee) DA170 - Main Hall AB
10:30 am - 12:30 pm **ROUNDTABLE 2**	**8 rooms** (see Room Distribution p.20) **Each group evaluates 6 of the 48 proposed actions for a national strategy for quality** 170 // 209 // 215 // 230 // 240 // 300 // 315 // 330
12:30 - 2:00 pm	Lunch DA170K - Daniels Commons
→	Exhibition of Roadmaps + Results of Student Video Competition + Launching of International Student Competition on Invisible Accessibility: "*Let's all go to the sport center*" by Bechara Helal and Carmela Cucuzzella DA170AB

2:00 - 2:30 pm	Guest Introduction by Susan Speigel (Member of the Steering Committee) **Presentation by Nathalie Dion** ***"A Look Back at the Adoption of an Architecture Policy in Quebec"*** DA170 - Main Hall AB
2:30 - 4:15 pm **PLENARY**	Students' Take from the 8 Rooms of the 2nd Roundtable on National Actions Populating the **ArchiQualiData.ca** digital platform by Jean-Pierre Chupin DA170 - Main Hall AB
OPEN DISCUSSION	**Strengths and weaknesses of the draft white paper** **Next steps for the Research Partnership on Quality** Moderated by Samantha Biglieri, Robert Wright and Doramy Ehling (Members of the Steering Committee) DA170 - Main Hall AB
4:00 - 4:15 pm	Acknowledgments
4:15 - 5:00 pm	Walk (or TRAM 510B) to HTO Park West (Waterfront)
5:00 - 5:30 pm	**Indigenous Closing Ceremony**
5:30 - 7:00 pm	Guided tour of the Toronto Waterfront by Fadi Masoud and Rob Wright Departure from Spadina Wavedeck at 6.15 pm

Day 3 | Friday May 2, 2025

9:00 - 10:15 am	Graduate Students Committee DA230
10:30 - 11:45 am	Dissemination and Outreach Committee DA230
12:00 - 1:45 pm	Governance Board (+lunch) DA230
3:00 - 5:00 pm	Don Mouth Naturalization and Port Lands Flood Protection Guided tour by WATERFRONT Toronto Limited to 35: Mandatory registration

Your Notes

Speakers and Moderators

Samantha Biglieri
Assistant Professor, Toronto Metropolitan University
Member of the Steering Committee

Dr. Samantha Biglieri is an Assistant Professor and Director of the Health, Access, and Planning (HAP) Lab at Toronto Metropolitan University. Her research focuses on the intersection of health, wellbeing, and urban planning, particularly around dementia, aging, housing, COVID-19 impacts, and accessibility. Dr. Biglieri's work has been funded by national and provincial governments and published internationally. She teaches courses on land-use planning, participatory research methods, and health in planning, and is a Registered Professional Planner.

Jean-Pierre Chupin
Professeur titulaire, Université de Montréal
Project Director

Professor and architect, Jean-Pierre Chupin holds the Canada Research Chair in Architecture, Competitions and Mediations of Excellence at Université de Montréal (www.crc.umontreal.ca). An expert on design competitions and systems of awards, he is chief editor of two online databases of contemporary projects and buildings: the Canadian Competitions Catalogue (CCC) (www.ccc.umontreal.ca) and the Archives of Exemplarity in Architecture and the Built Environment (AREA) (https://architecture-excellence.org). Since 2022, he is the scientific director of the SSHRC research partnership: Quality in Canada's Built Environment: Roadmaps to Equity, Social Value and Sustainability.

Darryl Condon
Managing Principal, hcma

Darryl Condon is Managing Principal at hcma architecture + design, where he has championed public architecture that fosters social change for over 35 years. He chaired Rise for Architecture (2016–2023), advocating for a national architecture policy. A Fellow of the RAIC and Past President of the AIBC, Darryl is currently pursuing a Doctorate of Design at the University of Calgary, focused on maximizing public benefit through community facilities.

Nathalie Dion
Architecte Associée, Provencher_Roy
Member of the Steering Committee

Nathalie Dion is a seasoned architect with over 30 years of experience and a partner at Provencher_Roy since 2021. She served as President of the Ordre des architectes du Québec from 2013 to 2019 and played a key role in the adoption of Québec's first National Policy for Architecture in 2022. A Fellow of the RAIC, she is a strong advocate for the democratization of architecture and its role in public life.

Doramy Ehling
Chief Executive Officer, Rick Hansen Foundation
Member of the Steering Committee

Doramy Ehling is the CEO of the Rick Hansen Foundation (RHF), leading its mission to create an inclusive world for people with disabilities. She served as RHF's Chief Operating Officer for 11 years before becoming CEO in 2018. Prior to RHF, Doramy worked at Canadian Heritage, including roles within Sport Canada. She is a member of several advisory boards, including the Diversity Institute at Ryerson University, the Greater Vancouver Board of Trade's Diversity and Inclusion Leadership Council, and the Disability in Work Canada Steering Committee.

Terrance Galvin
Professor, FRAIC
Member of the Steering Committee

Terrance Galvin, FRAIC, is a professor of architecture and founding director of the McEwen School of Architecture in Sudbury. He has taught at McGill and Dalhousie and holds degrees from TUNS, McGill, and the University of Pennsylvania. A recognized scholar and speaker, his work spans architectural theory, cultural sustainability, and design intuition.

Christopher Glaisek
Chief Planning and Design Officer, WATERFRONToronto

Chris Glaisek is Chief Planning and Design Officer at Waterfront Toronto, where he leads transformative urban projects with a focus on design excellence and sustainability. Chris is a passionate advocate for design excellence in the public realm. Over nearly 20 years, he has contributed to major initiatives like NYC's 2012 Olympic bid, the World Trade Center rebuilding, and Toronto's waterfront revitalization. Under his leadership, Waterfront Toronto has earned over 60 design awards. He frequently lectures and teaches on urban design and holds a Master of Architecture from Yale.

Trishtina Godoy-Contois

Student Athabasca University
Member of the Steering Committee

Trishtina Godoy-Contois is a political economics undergraduate and a steering committee member of the Quality in the Built Environment project. With over five years of experience, she supports systemic change through research, education, and policy. Her work includes Indigenous anti-racism curriculum, rural housing consultations, and AI-integrated qualitative research. Trishtina champions culturally informed, collaborative solutions for sustainable housing.

Lisa Landrum

Department Chair of Architectural Science
Toronto Metropolitan University

Lisa Landrum is an architect, educator, and researcher exploring the intersection of architectural agency, ethics, and poetics. She is Professor and Chair of the Department of Architectural Science at Toronto Metropolitan University. She holds a Bachelor of Architecture from Carleton University and a Master's and PhD in Architectural History and Theory from McGill University. In 2019, she founded the Canadian Architecture Forums on Education (CAFÉ) to advance national dialogue on the future of architecture. Her work champions social equity and cultural meaning, highlighting architecture's role in fostering peace, justice, and joy. Her publications include Theatres of Architectural Imagination (Routledge, 2023).

Oliver Martin

Chair Davos Baukultur Alliance

Oliver Martin holds a Master's degree and PhD in Architecture from the Swiss Federal Institute of Technology Zurich. He joined the Excecutive Board of the Swiss Federal Office of Culture in 2012 as Head of the Baukultur section. In parallel, he was a member of the Swiss delegation to the UNESCO World Heritage Committee from 2010 to 2013 and was a member of ICCROM Council from 2013 to 2021, serving as president from 2017 to 2021. He is one of the main authors and promoters of the concept of Baukultur and the related Davos Declaration, adopted by the European Ministers of Culture in 2018, which became a reference text for building and planning policies in Europe and beyond. Oliver Martin is the Chair of the Davos Baukultur Alliance, launched in 2023.

Fadi Masoud

Associate Professor, University of Toronto
Member of the Organization Committee

Fadi Masoud is an Associate Professor of Landscape Architecture and Urbanism at the University of Toronto and the Director of the Centre for Landscape Research. Masoud currently leads projects on urban climate adaptation and the design of resilient public open space.

Marco L. Polo

Professor Toronto Metropolitan University
Member of the Organization Committee

Marco L. Polo, OAA, FRAIC is a Professor in the Department of Architectural Science at Toronto Metropolitan University, and was editor of Canadian Architect from 1997 to 2003. He has served on numerous design juries, has published widely on contemporary Canadian architecture and has curated several exhibitions, including the official Canadian representation at the 2008 Venice Biennale of Architecture.

Susan Speigel

Architect, Founder SSA STUDIO
Member of the Steering Committee and Governance Board Committee

Susan Speigel is an Architect with over 30 years of experience, and founder of SSA STUDIO, a design practice focused on 'Social Architecture in the Public Realm.' She was also Core Faculty in the Masters *Institute without Boundaries* program at GBC. Her work spans multiple disciplines, emphasizing community building and innovative solutions. Speigel is involved in a 5-year SSHRC project on Quality in the Built Environment and has taught at George Brown College for 15 years. A former President of the OAA, she advocates for design solutions that balance social impact with sustainable practices.

Robert M. Wright

Associate Professor, University of Toronto
Member of the Organization Committee and Governance Board

Professor Robert Wright, " a man whose life is written in water"

Committees Composition

Graduate Student Committee

Chair

Nooshin Esmaeili, University of Calgary

Indigenous Student Representative

Twylla Soosay, Athabasca University

Members

Trishtina Godoy-Contois, Athabasca University
Panos Polyzois, University of Manitoba
Narita Ico, University of British Columbia
Siah Klassen, Laurentian University
Yaxin Jiang, Toronto Metropolitan University
Benjamin Dunn, University of Toronto
Marc- Fournier, University of Waterloo
Lia Di Giulio, Carleton University
Shantanu Biswas Linkon, Université de Montréal
Negarsadat Rahimi, Concordia University
Iris Pintiuta (Rep. Dennis Ohm-Fickler), McGill University
Dener François (Rep. Aya Boussouf), Université Laval
Ben Johnston (Rep. Kaylee Peters), Dalhousie University

Dissemination and Outreach Committee

Chairs

Grace Coulter Sherlock, AAA
Laura McBride, Rick Hansen Foundation
Danielle Catley, IRAC

Members

Michel DeBlois, Université Laval
Federica Goffi, Carleton University
Brian R. Sinclair, University of Calgary
Mercedes Garcia-Holguera, University of Manitoba
Jeanne Leblanc-Trudeau, Ville de Montréal
Tessa Penich, Vibrant Calgary
Firdous Nizar, Université de Montréal

Governance Board Committee

Chair

Mike Brennan, IRAC

Co-Chair (TBD)

Members

Kees Lokman, University of British Columbia
Enrica Dall'Ara, University of Calgary
Ursula Eicker, Concordia University
Douglas Macleod, Athabasca University
Shauna Mallory-Hill, University of Manitoba
Thomas Strickland, Laurentian University
Fatih Sekercioglu, Toronto Metropolitan University
Fadi Masoud, University of Toronto
Adrian Blackwell, University of Waterloo
Izabel Amaral, Université de Montréal
Stéphane Roche, Université Laval
Susan Fitzgerald, Dalhousie University
(Rep. Jeanne Leblanc-Trudeau), Ville de Montréal
Christopher Dziwinski, PSPC
Dawn Clarke, City of Calgary
Doramy Ehling, Rick Hansen Foundation
Afrah Rayes, Federation of Calgary Communities
Josie C. Auger, Bigstone Cree Nation, Treaty 8
Robert Wright, University of Toronto
Susan Speigel, OAA
Grant Fahlgren, CSLA

Special thanks to:
Acting Dean Robert Levit, John H Daniels Faculty of Architecture, Landscape and Design, University of Toronto
Admin. Team: **Allie Caldwell, Gabriela Aviad, Jelena Porovic, Sarah Whitehouse**

This fourth convention of the Quality in Canada's Built Environment research partnership is funded by:

- Social Sciences and Humanities Research Council of Canada (SSHRC) Partnership Grant Project #895-2022-1003
- Canada Research Chair in Architecture, Competitions and Mediations of Excellence (Tier 1)
- Vice-rectorat à la recherche et à l'innovation, Université de Montréal
- Office of Dr. Sri Krishnan, Dean, Faculty of Engineering and Architectural Science, Toronto Metropolitan University

We respectfully acknowledge that most partners, academic and non-academic, have funded their own travel and accommodation to reach the University of Toronto from across Canada. This collaborative project would not be possible without their dedicated support.

On behalf of the partners, the project director and administrator would like to express their deep gratitude to all members of the **Steering Committee** for their constant support and advice.
